

Field Extension Education Laboratory

The Field Extension Education Laboratory, or FEEL, is a 23-acre teaching and demonstration facility dedicated to providing a hands-on learning experience for crop production professionals. This facility is used for demonstration projects used in a variety of programs held throughout the summer months. In these plots we can show a wide range of management problems, solutions, and diagnostic challenges. Modern, air-conditioned classroom facilities complement the in-field sessions, all of which are within walking distance.

Lodging

Hotel facilities are available in Boone (approximately 5 miles west of FEEL) and Ames. Those needing overnight accommodations can find hotel information at the Ames Convention and Visitors Bureau Web site: www.visitames.com. Lodging and other travel expenses are the responsibility of the participant.

Visiting FEEL

From north or south via I-35, or the east I-35 to the Hwy 30 West exit. Proceed west on Hwy 30 for approximately 11 miles. At U Avenue, turn south. (United Community School is on the northeast corner and the ISU Agronomy Farm is on the southeast corner of this intersection.) Proceed south on U avenue for one mile then turn right on 240th street. Proceed west for 0.5 miles. FEEL is on the south side of the road.

From the west

Continue east on Hwy 30 from Boone for approximately 4 miles until the Hwy 17 South exit. Go south on Hwy 17 for 2.0 miles until you reach 240th street. Turn left and proceed east for 1.5 on 240th street. FEEL is on the south side of the road.
