

# **CURRICULUM VITAE**

**April 2015**

## **Antonio P. Mallarino**

Department of Agronomy, Iowa State University

Telephone (515) 294-6200, E-mail apmallar@iastate.edu

### **Education**

Ph.D., 1988. Crop Production and Physiology, Iowa State University,  
M.S., 1981. Soil Fertility, and Crop Production and Physiology; Iowa State University.  
B.S., 1975. Agronomy and Animal Science (Ingeniero Agronómico), University of Uruguay.

### **Employment**

2003-present. Professor, Soil Fertility. Agronomy Dep., Iowa State University.  
1998-2002. Associate Professor, Soil Fertility. Agronomy Dep., Iowa State University.  
1993-1997. Assistant Professor, Soil Fertility. Agronomy Dep., Iowa State University.  
1989-1990. Postdoctoral Research Associate, Soil Fertility. Agronomy Dep., Iowa State Univ.  
1991-1992. Assistant Scientist II (1992), Soil Fertility. Agronomy Dep., Iowa State University.  
1981-1988. Associate Professor, Soil Fertility. Dep. of Soils, University of Uruguay.  
1976-1980. Assistant Professor, Soil Fertility. Dep. of Soils, University of Uruguay.  
1974-1975. Instructor ( $\frac{1}{2}$  time), Soils. Dep. of Soils, Univ. of Uruguay.

### **Responsibilities at Iowa State University**

#### **1. Research (55% estimated actual dedication):**

The research program focuses on developing cost-effective and environmentally sound nutrient management practices for cropping systems of the North Central region with emphasis on P, K, micronutrients, and lime management; manure P utilization; nutrient management for conservation tillage systems, bioenergy crop production systems, soil testing and plant analysis, fertilizer and manure placement methods, impacts of bioenergy production on soil and water quality, environmental P management and loss risk assessment tools, and use of precision agriculture technologies for nutrient management. The program integrates conventional field plot and laboratory research with innovative on-farm research and demonstrations utilizing precision agriculture technologies, and it is developed in cooperation with producers, agribusiness, and extension agronomists.

**2. Extension (38% estimated actual dedication):** Extension activities focus on issue related to crop production and environmental nutrient management mainly for areas emphasized by the applied research program, and support state-wide ISU Extension programs. The effort involves outreach to producers and agribusiness, training of field extension agronomists, co-responsibility for establishing nutrient management guidelines, and teaching continuing education courses. The activities include presentations in a variety of conferences and workshops targeted to producers or agribusiness, on-farm demonstrations, preparing extension publications and articles, and teaching continuing education short-courses.

**3. Teaching (1% estimated actual dedication):** The position has no formal resident teaching requirement. A minor resident teaching effort has included teaching four lectures related to phosphorus agronomic and environmental issues of the course Agron/AnSci 543X Environmental Management of Livestock, preparing materials for three chapters of two soil courses of the Long Distance M.S. in Agronomy program, and occasional contributions to undergraduate and graduate courses through invited lectures. Other contributions include advising graduate students in relation to course programs and both preparing

and evaluating questions for the Soils Ph.D. preliminary exams. A significant effort on non-resident continuing education is included with extension activities.

**4. International (3% estimated actual dedication):** A minor but important effort involves collaborative outreach projects and advising to research project development with various research and education institutions and other organizations in Argentina and Uruguay. The activities relate mainly to use of soil testing and plant analysis, improving soil fertility management for conservation tillage, and use of precision agriculture technologies for nutrient management.

**5. Service (3% estimated actual dedication):** Significant service activities to ISU and the State of Iowa have been developed mainly in the following areas: Member of the supervisory committee for the Iowa State University Soil Testing and Plant Analysis Laboratory and co-responsible for its recommendations; represent the Iowa Experiment Station at the regional committee NCERA-13 (North-Central Committee for Soil Testing and Plant Analysis) and SERA-17/IEG (Minimizing Phosphorus Losses from Agriculture); represent the Soil Science Society of America and the NCERA-13 soil testing and plant analysis committee at the Oversight Committee for the North American Proficiency Testing Program, advise the Iowa Natural resources Conservation Service and the Department of Natural Resources in relation to agronomic and environmental P management regulations.

### **Professional Activities and Memberships**

- Chair, Soil Science Society of America Committee for the Applied Research Award (2013)
- Chair, Soil Fertility Division (S4), Soil Science Society of America (2012).
- Honorary member Graduate Faculty of the College of Agriculture, University of Uruguay (since 2012)
- Member, Soil Science Society of America Applied Research Award committee (2011).
- Member (representative of the NCERA-13 regional committee), Oversight Committee for the North American Soil Testing Proficiency Testing Program (NAPT) (S890) of the SSSA. 2009-2011.
- Member, Werner L. Nelson Award Committee (A439) of the ASA. 2007.
- Representative of Iowa State Univ., NCERA-13 regional committee. Since 1994 (Chair 1997-1998, Chair Elect 2015).
- Representative of Iowa State Univ., SERA-17/IEG national committee. Since 2000.
- Associate Editor, Soil Science Society of America Journal. 1999-2004.
- Associate Editor, Agronomy Journal. 2000-2005.
- Representative of SSSA, S890 Oversight Committee for the NAPT. 2004-2005.
- Certified Professional Soil Scientist (Soil Science Society of America, ARCPACS).
- Farmland's nutrient management advisory board (1999-2003).
- American Society of Agronomy.
- Soil Science Society of America.
- Soil Science Society of Uruguay.
- Marcell (Growmark) Nutrient Management Conference Group. 2001-present.
- Gamma Sigma Delta Honor Society for Agriculture.
- Phi Kappa Phi Honor Society for Science.
- Sigma Xi Honor Society for Scientific Research.

### **Awards and Recognitions**

- Outstanding Achievement in International Agriculture Award. College of Ag., Iowa State Univ. 2015.
- College of Agriculture (ISU) Dean's Citation for Extraordinary Contributions. 2013
- Lee R. Kolmer Award for Excellence in Applied Research. Iowa State University. 2010.
- Fellow, Soil Science Society of America. 2007
- Soil Science Society of America Applied Research Award. 2007

- Fluid Fertilizer Foundation Werner L. Nelson Award. 2005.
- Fellow, American Society of Agronomy. 2005.
- R. Baker Award (ISU) for contributions to study of P environmental issues. 2004.
- USDA/ARS Secretary Group Award (for contributions to technology transfer). 2004.
- Certificate of Appreciation, Iowa State University Extension. 2003.
- USDA/ARS Secretary Group Award (for contributions to P index development). 2003.
- W. L. Nelson Award for Diagnosis of Yield-Limiting Factor, American Soc. of Agron. 2003.
- Extension Award, Iowa State University - Cooperative Extension Service. 1999.
- Award for Excellence in Graduate Research, Iowa State University. 1988.
- C. R. Weber Award for Excellence in Plant Science, Iowa State University. 1987.
- International Scholar Fellow, World Food Institute, Iowa State University. 1986.

### **Student Advising.**

1. Major Professor at Iowa State University (since 1994): 41 students (16 Ph.D., 25 M.S.).
2. Creative Component (Thesis) Director at the University of Uruguay (1976-1986): 33 students.

### **Publications. [Asterisks identify Mallarino graduate students and research associates]**

#### **1. Peer-reviewed journal articles, book chapters, and position papers.**

##### **a. Refereed journal articles (82).**
